General Information

REGISTERED TRAINING ORGANISATIONS (RTOs)

Master Builders Tasmania (MBT) partners with several RTOs to deliver the best and most relevant training for the Building and Construction Industry. All nationally recognised training is clearly identified as such and you will be issued with a “Statement of Attainment” or a “Certificate” on successful completion of the unit(s) or course(s). RTOs we are currently working with are:

- Learning Partners (LP) (Provider No. 3397) www.learningpartners.com.au
- Master Builders Association of Qld (RTO 30097) www.mbaqld.com.au
- Allen’s Training (Provider No.90909) www.allenstraining.com.au
- High Risk Work Solutions (Provider No.91763) www.highriskworksolutions.com.au

UNIQUE STUDENT IDENTIFIERS - USI

Anyone undertaking nationally recognised training delivered by a Registered Training Organisation (RTO) is now required to have a USI. A learner’s USI links to an online account that you can access anytime, especially if you lose your qualification or Statement of Attainment. This online account contains all your records and results that you have completed from the 1st January 2015.

The USI is free and easy for learners to create online www.usi.gov.au

COURSE COSTS, TRAINING SUBSIDIES & REFUND POLICIES

Our courses are subsidised through the building levy, administered by the Tasmanian Building and Construction Industry Training Board (TBCITB), State Government, Federal Government and other funding sources. We will advise you on a course-by-course basis about availabilities and conditions.

Some course costs may vary from those printed in the Training Calendar and will be confirmed at the time of enrolment. **Participants who are not MBT members or their employees will be required to pay fees at the time of registration and prior to course commencement.**

IMPORTANT: All forms of subsidies only apply if the participant successfully completes the course. If you fail to attend or fail to successfully complete assessments within the allocated timeframes you have to pay the full course fee. MBT reserves the right to cancel any training or to postpone such training to an alternative date. All registered participants affected by any such cancellation or postponement will receive either a full refund (in the event of cancellation) or the opportunity to transfer to the next available course (in the event of postponement).

DEPARTMENT OF JUSTICE – LICENCING AND ACCREDITATION ADVICE ON CPD POINTS

Building Practitioner Accreditation will accept any hour of training in this Training Calendar to be equivalent to one point, provided the person who undertook the training considers it to be relevant to their professional development as a Licenced Building Services Provider. This covers domestic, commercial and building design categories.

On-Site Workplace Training

WHAT IS ON-SITE WORKPLACE TRAINING?

Master Builders Tasmania On-Site Workplace Training provides your company with the flexibility to have training delivered at a time and location that suits both your work commitments and employee rosters.

THE BENEFITS WORKPLACE TRAINING PROVIDES TO YOUR COMPANY

Investing in a Master Builders Tasmania workplace or tailored industry training program provides a learning solution specific to your business.

The benefits to your company include:

- Training and upskilling your employees and subcontractors providing increased confidence in knowing your staff are better equipped to perform their job roles.
- Greater flexibility around program time tabling for example scheduling training when it suits your business
- Program timings (early mornings, evenings or late afternoons) to suit workplace rosters.
- Location, location, location! Workplace training can be conducted at your workplace or at a Master Builders Training venue whichever suits you better.
- Exposing employees and managers to industry best practice.
- Opportunities for team building and increasing organisation and commitment from employees.
- Meaningful opportunities to apply learning directly in the workplace using scenarios, policies and operating systems documentation that are relevant to your specific workplace.

WHAT DOES THIS MEAN FOR YOU?

Saves you time and money, just tell us what sort of training you would like or require and we will do the rest leaving the only thing you are required to do is organising your employees.

EXAMPLES OF THE POPULAR TAILORED TRAINING PROGRAMS INCLUDE, BUT ARE NOT LIMITED TO –

- First Aid
- Asbestos Awareness
- Condensation and Insulation
- Work Safely at Heights
- EWP
- SWMS & SMP
- Confined Space

Tailored training programs can incorporate your company's policies and procedures. All costs are negotiable.

For further details please contact Wendy - wendy@mbatas.org.au or Amy – amy@mbatas.org.au or call 6210 2000

On Demand Nationally Accredited Training

In addition to our range of scheduled training courses, we also offer the below Nationally Accredited short courses. These courses are held on demand, if you do not see the course you require listed below, please phone us and we will do our best to arrange it for you.

COURSE TITLE
Basic Scaffolding (erect, alter & dismantle scaffolding) (CPCCLSF2001A)
Work Safely at Heights (RIIWHS204D)
Enter and Work in a Confined Space (RIIWHS202D)
Licence to Operate a Boom Type Elevated Work Platform (TLILIC2005)
Licence to Operate a Forklift Truck TLILIC2001
Licence to Perform Dogging CPCCLDG3001A
Implement Traffic Management Plan (RIIWHS302D)
Prepare Work Zones Traffic Management (RIICWD503D)

Construction Ready

Construction Ready is a pre-apprenticeship program designed to have your new apprentices work ready before they commence their apprenticeships.

The course runs over 2 days, sessions are held from 8.30am to 4.30pm.

This training is free to our members!

Day 1

Course Name	Course content and objectives
WHS in Construction	<u>WHS frame work</u> – To gain understanding of the WHS Act and regulations, responsibilities of all personnel working in the construction industry
	<u>Safe work culture</u> – Understanding the importance for developing and maintaining a safe work culture
	<u>Risk Management</u> – Gain understanding of how risk is managed in the construction industry, including how to develop and implement and interpret JSEA, SWMS, Slams
	<u>Permits</u> - Gain knowledge in the use of permits when required, ex. Confined space entry, working at heights , hot work and penetration
	<u>Isolation and tag out</u> - Able to identify when how where isolation may be part of a task, and the use of locks and tags
Prevent Injury Hazardous Manual Tasks	<p>To establish methods to minimise the risk of injury to workers in the Construction industry carrying out hazardous manual tasks in</p> <ul style="list-style-type: none"> • Manual Handling • Adopting and Maintaining good Working Postures • Using correct Manual Handling Practices • Excessive Noise • Eye Protection • Chemical Handling (SDS) • Heat Illness • Controlling common risks • Select, inspect & fit PPE

Day 2

Course Name	Course content and objectives
Asbestos awareness	<p>Enables participants to develop the knowledge of what asbestos is possible asbestos containing materials, as well as a basic understanding of the regulations for the safe removal and disposal of asbestos.</p> <p>Course Contents:</p> <ul style="list-style-type: none">• Identify and describe different types of asbestos• Identify likely ACMs and products• Identify and control asbestos-related hazards• Relate safe work methods to ACMs• Appropriately and accurately report the presence of ACMs• Describe the health risks, effects and preventative measures associated with asbestos exposure.• Identify asbestos control, maintenance and emergency procedures
Working Safely at Heights RIIWH204D	<p>This course is a national accredited course. WSH course provides clear instruction and practical exercises on how to manage health and safety risks arising from falls. It includes information on a range of control measures to eliminate or minimise the risks and handle emergency situation. The emphasis of the course is for participants wishing to attain a qualification to meet the Work Health and Safety requirements when managing working at heights in the workplace.</p> <p>Course Contents:</p> <ul style="list-style-type: none">• Fall Restraint• Fall Arrest• Forces of Falls• Heights Equipment• Rescue from Heights• Suspension Intolerance• Assessment

This training is held on demand, please contact either Wendy or Amy in the Hobart office if you wish to register your apprentices.

2019 – Short Courses

Health & Safety

PROVIDE FIRST AID - HLTAID003

This course will give you the skills and knowledge required to provide First Aid response, life support and management of casualties.

Units of competency covered:

HLTAID001 – Provide CPR

HLTAID002 – Provide Basic Emergency Life Support

HLTAID003 – Provide First Aid

TOPICS COVERED INCLUDE:

- Basic Life Support
- Unconscious Casualty
- Expired Air Resuscitation
- Airway Management – Asthma, Choking, Severe Allergic Reaction
- Shock Management
- CPR Principles
- Injury Management
- Burns and Scolds

CBOS award 6 CPD Points for this training

Cost to Members \$50 / Eligible non-members \$75

Courses will be held on the following dates:

Hobart – 5th March, 4th June, 3rd Sept and 3rd Dec

Launceston – 19th March, 18th June, 10th Sept and 10th Dec

Devonport – 20th March, 19th June, 11th Sept and 11th Dec

Sessions commence at 8.30am and run through to 4pm

NATIONALLY RECOGNISED
TRAINING

This course is run in partnership with Allens Training Provider No. 90909

Allens Training is responsible for the training and assessment and for issuing this qualification or statement of attainment

ASBESTOS AWARENESS

This covers an introduction to asbestos, recognising different forms of asbestos in buildings and how to deal with them.

TOPICS COVERED INCLUDE:

- Identify asbestos and asbestos containing materials
- The dangers and health concerns of asbestos
- The dos and don'ts of handling asbestos
- Appropriate legislation requirements and responsibilities
- Basic concepts of WHS plans and safe work methods statements for the handling of asbestos hazards in the workplace.

3 Hours – 3 CPD Points

Cost to Members \$30 / Eligible non-members \$60

Dates for 2019 to be announced

ELECTRICAL TEST & TAG

This training will enable you to test and tag your own small power tools, residual current devices and extension leads.

Bring some of your power tools with you practice on!

TOPICS COVERED INCLUDE

- Effects of electricity on the human body
- Methods of reducing electric shock
- How to use a variety of test equipment
- Inspection and testing of various equipment
- Introduction to electrical fundamental concepts

6 Hours – 6 CPD Points

Cost to Members \$75 / Eligible non-members \$120

Courses will be held on the following dates:

Hobart – 6th March & 4th Sept

Launceston – 7th May & 7th Oct

Devonport – 8th May & 8th Oct

Sessions run from 9am – 3.30pm

RESIDENTIAL SITE SAFETY AND COMPLIANCE

Designed to help you make your site safe and compliant with WHS requirements, it will look at the following topics and provide options and templates to manage your site(s) covering the following aspects.

TOPICS COVERED INCLUDE:

- Site set up – Is it safe during and after work hours?
- Equipment – Do you have what you need and is it fit for purpose?
- Communications – Who is in control of the site at any time and do those parties communicate?
- High risk activities – When do they happen are they properly managed?

4 Hours – 4 CPD Points

Cost to Members \$40 / Eligible non-members \$70

Sessions run from 4 – 8pm

Dates for 2019 to be announced

SAFETY MANAGEMENT PLANS (SMP)

You will learn how to use the Master Builders Site Safety Plan effectively to meet your legislative requirements as a principal contractor.

Course includes the template plan, practical advice all done on site.

Course costs cover all resources and follow up visit.

Pre-requisite – you will need basic computer skills to be able to modify your SMP.

4 Hours – 4 CPD Points

Cost to members \$300

This training is available to members only and requires bookings

Technical

WATERPROOFING INTERNAL

Designed to give an overview of Wet Area Waterproofing requirements under the National Construction Code (NCC), and the revised Australian Standard AS3740. Addressing defect causes and application of the standard relative to current industry trends and practices.

TOPICS COVERED INCLUDE:

- Common failures in waterproofing and how to avoid them
- Use of materials / compatibility of products
- Design issues
- Installation practices

4 Hours – 4 CPD Points

Cost to Members \$60 / Eligible non-members \$90

Courses will be held on the following dates:

Hobart – 26th February and 27th August

Launceston – 25th March & 22nd October

Devonport – 16th April & 28th October

Sessions run from 8am – 12pm

WATERPROOFING EXTERNAL

Designed to give an overview of above ground waterproofing, compliance and practical applications required by Australian Standard AS4654.2. It will address defect causes and application of the standard relative to decks, planter boxes and movement and drainage principles. Also details Standard requirements for planter box waterproofing and defect avoidance principles for efflorescence.

4 Hours – 4 CPD Points

Cost to Members \$60 / Eligible non-members \$90

Courses will be held on the following dates:

Hobart – 26th February & 27th August

Launceston – 25th March & 22nd October

Devonport – 16th April & 28th October

Sessions run from 12.30 – 4.30pm

WALL AND FLOOR TILING - COMPLIANCE

Designed to provide you with the skills and knowledge to inspect and identify defects and causes in floor and wall tiling systems to ensure compliance with NCC and Australian Standards requirements.

4 Hours – 4 CPD Points

Cost to Members \$60 / Eligible non-members \$90

Courses will be held on the following dates:

Hobart – 27th February & 28th August

Launceston – 26th March

Devonport – 17th April

Sessions run from 8am – 12pm

BELOW GROUND WATERPROOFING

This seminar covers NCC compliance and Practical Applications, performance provisions for the protection of buildings against below ground water ingress.

NCC performance provisions, 3 stage protection – membranes, structural components and drainage.

4 Hours – 4 CPD Points

Cost to Members \$60 / Eligible non-members \$90

Courses will be held on the following dates:

Hobart – 27th February & 28th August

Launceston – 26th March

Devonport – 17th April

Sessions run from 12.30pm – 4.30pm

SCAFFOLD AWARENESS – INSPECTION

The aim of this training is to provide construction site supervisors/managers with sufficient information and knowledge to ensure scaffolding erected by contractors on site complies with relevant standards, to manage risks and inspect equipment.

TOPICS COVERED INCLUDE:

- Standards, codes, manufacturers specs and reference material
- Scaffold types
- Scaffold capacity
- Components and terminology
- Footings
- Scaffold calculations
- Bracing and rigidity
- Edge protection
- Decking / platform requirements
- Inspection & tagging
- Calculations on loading
- Scaffold component inspection
- Safe erection sequence
- Mobile scaffolds

4 Hours – 4 CPD Points - Courses will be held on request.

Cost to Members \$80 / Eligible non-members \$110

TIMBER FRAMING

Aimed at achieving solutions where on-site problems or changes occur or where there is a lack of detail on the drawings. It is designed to provide an overview and an understanding of some of the working requirements of AS1684 parts 2, 3 & 4.

TOPICS COVERED INCLUDE:

- Scope and general issues
- Terminology and definitions
- Wall & roof framing
- Bracing
- Fixings and tie downs

3 Hours – 3 CPD Points

Cost to Members \$30 / Eligible non-members \$60

Courses will be held on the following dates:

Hobart – 21st May & 10th Sept

Launceston – 14th May & 17th Sept

Devonport – 15th May & 18th Sept

RESIDENTIAL FOOTINGS AND SLABS

This course is aimed at giving you a better understanding of the working requirements of AS2870.

TOPICS COVERED INCLUDE:

- Standard designs for footings and slabs
- Detailing requirements
- Terminology and definition
- Design by engineering principles
- Construction requirements

3 Hours – 3 CPD Points

Cost to Members \$30 / Eligible non-members \$60

Courses will be held on the following dates:

Hobart – 18th June & 5th Nov

Launceston – 4th June & 12th Nov

Devonport – 5th June & 13th Nov

Sustainability

BAL TRAINING

Join Mark Chladil, Fire Management Planning Officer with Tasmanian Fire Service for this interactive session to discuss the following topics:

- What is a Bushfire-prone area?
- What is a Bushfire Attack Level (BAL) assessment?
- Who can perform a BAL?
- Steps in performing a BAL
- Application to Building Classes
- Mandatory construction requirements (NCC & Australian Standards)
- Existing building compliance
- New work on existing buildings
- Road and water access requirements for new buildings
- Alternative Design Solutions
- Assessment of Outbuildings
- Assessments of fire hazards:
- Bushfire Hazard Management Plans (BHMP)
- Comparison of a BHMP and a BAL assessment
- Finding an Accredited Assessor

3 Hours – 3 CPD Points

Cost to Members \$30 / Eligible non-members \$60

Dates for 2019 to be announced

CONDENSATION & INSULATION – HOUSE ENERGY RATINGS

IN LINE WITH THE IMPENDING CHANGES TO THE NCC WE WILL BE ANNOUNCING NEW COURSES FOR BOTH OF THESE AS SOON AS WE ARE ABLE IN 2019

SOCIAL MEDIA

NEW

Do you know how to use Social Media to advertise your business?

Gain a better understanding of the digital and social media platforms as they apply to business.

With social media quickly evolving and changing, keep up to date without being overwhelmed and confused.

Learn how social media can support you in growing your business

TOPICS ALSO COVERED INCLUDE:

- Facebook – why not use it to advertise and grow your business
- Introduction to using: YouTube and LinkedIn, how they work, why they work and what communications work best

3 Hours, CBOS Award 1.5 CPD Points for this training

This training is offered free to our members

Dates for 2019 to be announced

4 KEY STEPS

NEW

Is the time you spend working on quotes you never win your biggest loss of time and money?

Understanding how people think, communicate and make decisions may give you the edge.

In every business no matter what we do making a great connection at your first contact is critical, it may be the only chance you get to develop a partnership, turning a potential client into a definite client.

Having the opportunity of converting more quotes into jobs is the key to operating a successful building business.

3 Hours, CBOS Award 1.5 CPD Points for this training

This training is offered free to our members

Dates for 2019 to be announced

NEW

YOUR BEST YEAR YET!

Your goal in business should be about creating the lifestyle you desire.

Running your own business will always have its challenges and as you manage the jobs, the ordering, the paperwork as well as dealing with clients, sub contractors and employees, it is quite easy to be so consumed by all this that you neglect the things that really matter.

3 Hours, CBOS Award 1.5 CPD Points for this training
This training is offered free to our members

Dates for 2019 to be announced

NEW

SECURITY OF PAYMENT & DEBT RECOVERY

This course takes participants through the security of payments system on a step by step basis, this knowledge is then applied by the participants who develop a payment claim and a payment schedule based on a given scenario.

It also introduces the processes and documentation required to understand, invoice, negotiate, claim and enforce outstanding payments.

TOPICS COVERED INCLUDE:

- Overview and application of Security of Payments
- Making a payment claim
- Responding to payment claims
- Payment clauses
- Invoicing
- Enforcing payment
- Debt recovery options

3 Hours – 3 CPD Points
Cost to Members \$50 / Eligible non-members \$80

Courses will be held on the following dates:

Hobart – 5th February
Launceston – Expressions of Interest
Devonport – Expressions of Interest

UNDERSTANDING MBT CONTRACTS

This is designed to answer the questions around selecting and completing the correct MBT contract:

- Learn about the various building contracts and how they differ
- Understand the content and purpose of each contract
- Know your responsibilities and what you are agreeing to
- Be aware of the traps and pitfalls which cause contracts to fail
- Learn how to complete a contract so it is effective and compliant

6 Hours, Held over 2 x 3 hour sessions – 6 CPD Points
Cost to Members \$60 / Eligible non-members \$90

Course will be held on the following dates:

Hobart – 18th & 19th February
Launceston – 16th & 23rd May
Devonport – 21st & 22nd May

ESTIMATING ESSENTIALS

Provides builders and trade contractors with the skills required to calculate overheads, on-costs and compile estimates for residential and low-rise commercial construction projects.

TOPICS COVERED INCLUDE:

- Identify structural components and “take off” quantities
- Identify and calculate labour, materials and sub-contract costs
- Identify and establish physical resource requirements
- Develop estimated project costs
- Generate a letter of offer (quotation)

Participants will be provided with a copy of the spreadsheet but will require a laptop that is compatible with Microsoft Excel. (MBT does have some reserved laptops to borrow)

6 Hours, Held over 2 x 3 hour sessions – 6 CPD Points
Cost to Members \$60 / Eligible non-members \$90.00

Courses will be held on the following dates:

Hobart – 1st & 2nd April and 7th & 8th October
Launceston – 9th & 16th April and 29th October & 5th November
Devonport – 29th & 30th April and 29th & 30th October

Licencing Qualifications

CPC40110 Certificate IV in Building & Construction (Building)

This course is delivered in 7 clusters, containing 16 units of competency and satisfies the academic requirement to apply for a Licence as a Building Services Provider – Low Rise

Classes are held weekly –

Launceston on Wednesdays

Hobart & Devonport on Thursdays all sessions are held from 4.30 – 8pm

	<i>Dates, Times & Venues</i>
<u>SUPERVISION & SITE ADMINISTRATION</u> - (6 Weeks) CCCCBC4007A – Plan building and construction work CCCCBC4008B – Conduct on-site supervision of building and construction projects	Launceston – 30 th Jan – 6 th Mar Hobart & Devonport – 31 st Jan – 7 th Mar
<u>CONTRACTS & LEGAL OBLIGATIONS</u> - (6 Weeks) CCCCBC4003A – Select and prepare a construction contract CCCCBC4009B – Apply legal requirements to building and construction projects CCCCBC4016A – Administer a construction contract	Launceston – 13 th Mar – 17 th Apr Hobart & Devonport – 14 th Mar – 18 th Apr <i>Week of 22nd April off</i>
<u>BUILDING CODES & PLANS</u> - (6 Weeks) CCCCBC4001A – Apply building codes and standards to the construction process for low rise building projects CCCCBC4012B – Read and interpret plans and specifications	Launceston – 1 st May – 5 th Jun Hobart & Devonport – 2 nd May – 6 th Jun
<u>STRUCTURAL PRINCIPLES</u> - (6 Weeks) CCCCBC4010B – Apply structural principles to residential low-rise constructions CCCCBC4011B - Apply structural principles to the commercial low-rise constructions	Launceston – 12 th Jun – 17 th July Hobart & Devonport – 13 th Jun – 18 th July
<u>ESTIMATING & PROCUREMENT</u> - (8 Weeks) CCCCBC4004A – Identify and produce estimated costs for building and construction projects CCCCBC4005A – Produce labour and material schedules for ordering CCCCBC4006B – Select, procure and store construction materials for low rise projects	Launceston – 24 th July – 11 th Sept Hobart & Devonport – 25 th July – 12 th Sept
<u>BUSINESS & FINANCIAL MANAGEMENT</u> - (6 Weeks) BSBSMB406A – Manage small business finances BSBSMB402A – Plan small business finances BSBSMB404A – Undertake small business planning	Launceston – 18 th Sept – 23 rd Oct Hobart & Devonport – 19 th Sept – 24 th Oct
<i>Catch up sessions scheduled across all offices for the 30th & 31st Oct</i>	
<u>WORK, HEALTH & SAFETY</u> - (4 Weeks) CCCCBC4002A – Manage occupational health & safety in the building and construction workplace	Launceston – 6 th – 27 th Nov Hobart & Devonport – 7 th – 28 th Nov

VENUES:

Launceston - 30 Gleadow Street

Hobart - Level 5 / 116 Bathurst Street

Devonport - 41 Steele Street

PAYMENT OPTIONS:

Total cost for MBT Members is \$1660.

A deposit of \$200 is payable on confirmation of enrolment, remaining fees are payable monthly by direct debit, this equals 10 monthly payments of \$146

Total cost for Eligible Non-Members is \$2640.

A deposit of \$200 is payable on confirmation of enrolment, remaining fees are payable monthly by direct debit, this equates to 10 monthly payments of \$244

Participants who successfully complete all the required learning and assessment tasks will be issued with an Award for CPC40110 Certificate IV in Building and Construction (Building).

This course is run in partnership with Learning Partners - Provider No. 3397

Master Builders is responsible for the training and assessment and Learning Partners is responsible for issuing this qualification or statement of attainment.

This course is delivered in 7 clusters comprising of 18 units of competency and satisfies the academic requirements to apply for a licence as a building provider – Medium Rise

	Dates
PRODUCT SELECTION - (2 Weeks)	
CPCBC5004A – Supervise and apply quality standards to the selection of building and construction material	28 th Jan – 4 th Feb
WH&S MANAGEMENT – (4 Weeks)	
BSBOHS504B – Apply principles of OH&S risk management	11 th Feb – 4 th March
ESTIMATING, TENDERS AND CONTRACTORS – (10 Weeks)	
CPCBC4004A - Identify and produce estimated costs for building and construction projects	11 th March – 15 th April
CPCBC4013A - Prepare and evaluate tender documentation	
- INCLUDES A WEEK OFF FOR EASTER -	
CPCBC4003A - Select and prepare a construction contract	29 th April – 6 th May
CPCBC5007B – Administer the legal obligations of a building contract	13 th – 20 th May
SELECTING AND MANAGING SUBCONTRACTORS – (2 Weeks)	
CPCBC5005A – Select and manage building construction contractors	27 th May – 3 rd June
PROJECT PLANNING – (6 Weeks)	
CPCBC5003A – Supervise the planning of on-site medium rise or construction work	10 th June – 15 th July
BUILDING CODES AND STRUCTURAL PRINCIPLES – (16 Weeks)	
CPCBC4001A – Apply building codes and standards to the construction process for low rise building projects	22 nd July – 12 th Aug
CPCBC4010B – Apply structural principles to residential low rise	
CPCBC4012A – Read and interpret plans and specifications	19 th Aug – 9 th Sept
CPCBC5001B – Apply building codes and standards to the construction process for medium rise	
CPCBC5009A – Identify services layout and connection methods to medium rise construction projects	16 th Sept – 4 th Nov
CPCBC5018A – Apply structural principles to the construction of medium buildings	
PROJECT DELIVERY – (8 Weeks)	
CPCBC5010B – Manage construction work	11 th Nov – 2 nd Dec
CPCBC5002A – Monitor costing systems on medium rise buildings and construction projects	
BSBPMG505A – Manage project quality	TBC 2020
BSBPMG508A – Manage project risk	TBC 2020

Classes are held weekly in Hobart from 3 – 7pm

Cert IV Building & Construction is not a prerequisite for doing Diploma.

Total cost for MBT members is \$2960, a deposit of \$260 is payable on confirmation of enrolment, remaining fees are payable monthly by direct debit, that equals \$150 per month for 18 months.

Participants who successfully complete all the required learning and assessment tasks will be issued with an Award for CPC50210 Diploma in Building and Construction (Building)
