

If an employer has reservations about, or is not in a position to directly hire an apprentice, then using the Master Builders Tasmania GTO is an easy way to engage an apprentice while not taking on the concerns of employing an apprentice directly.

The GTO will assist a host employer to engage an apprentice while offering flexibility, security and support to both the employer and the apprentice. A host employer can select one of MBT's candidates, or present your own to be inducted into the MBT Group Scheme.

Being a Host Employer is Easy -
